SOUTH BOSTON COMMUNITY HEALTH CENTER

BOSTON, MA

ARCHITECT

Steffian Bradley Architects

FABRICATOR

APCO

South Boston Community Health Center (SBCHC) is a full service health care facility serving the needs of the local South Boston community. Recently, the South Boston area has begun a revitalization effort, with SBCHC being one of the first businesses to upgrade their facilities and image. New interior and exterior signage was part of these efforts.

The exterior signage included new building identification and banners which contributed to a fresh new image as part of the architectural renovations.
